

BRIMSCOMBE AND THRUPP NEIGHBOURHOOD DEVELOPMENT PLAN

THINGS TO POSSIBLY BE DONE AS 'PROJECTS'

These can usefully be included within the Neighbourhood Plan but they are not 'examined'. They will however help the Examiner to understand the policies and to convince him/her about your ability to deliver things. Also, some of the projects are what you would use your CIL monies on, so having them pre-established will give them greater weight once developments start getting built.

In most cases, what follows draws from all the information provided at the January Drop-in. This is a starter list only; more ideas will come over time and are welcomed! However, it won't look good to put all possible projects in the plan; the list will need some later prioritisation.

Traffic, Transport and Parking

- ! Continue to lobby for speed limits and/or traffic calming on the A419
- ! Lobby for traffic calming on Toadsmoor Road
- ! Continue to lobby for crossings on the A419
- ! Improve existing, perhaps create new footpaths/cyclepaths
- ! Improve the ease and safety of travel to local schools.
- ! Promote more community transport
- ! More and better signposts for pedestrians and cyclists
- ! Promoting/managing car sharing

Housing

There was nothing suggested as 'projects' on housing; the suggestions below are from elsewhere:

- ! Community solar/photovoltaic energy initiative on existing houses
- ! Draughtproofing project for elderly people
- ! Welcome packs for new residents

Facilities/Environment

- ! Improve existing or create new playgrounds
- ! Some sort of facility for young people
- ! Community noticeboard(s)
- ! Trails and information for visitors (to draw them away from just the canal)
- ! More/different/better recycling facilities
- ! Proactive community management of designated Local Green Spaces
- ! Events for elderly people
- ! Community arts initiatives
- ! Local lending library, book recycling
- ! Hedgerows and fences to limit road noise
- ! Tree planting initiative

Employment

- ! Promote the Neighbourhood Plan to existing and perhaps new small employers. Speedy access to premises is worth £££ to whoever is developing the premises and to possible occupants
